

PERSONALIZED NETWORKING ASSISTANT

Complete Production Lifecycle & Technical Architecture Blueprint

Degree Program: Bachelor of Technology (B.Tech) in Computer Science & Engineering

Institution: Annamacharya Institute of Technology and Sciences

Author / Software Engineer: Vennapusa Thanmayi

Timeline: 2026 - 2027 Portfolio Architecture

Classification: Advanced Technical System Blueprint Documentation

Table of Contents

1. Brainstorming & Ideation	3
1.1 Executive Problem Domain	3
1.2 The Solution Ecosystem	3
1.3 Algorithmic Differentiation & Matrix Modelling	4
2. Requirement Analysis	5
2.1 Functional System Requirements	5
2.2 Non-Functional Architectural Constraints	5
2.3 Engineering Environment Specifications	6
3. Project Design Phase	7
3.1 Microservices Architecture & Topology	7
3.2 Relational Entity Schema & Vector Mappings	8
4. Project Planning Phase	9
4.1 Work Breakdown Structure (WBS) Matrix	9
4.2 Project Schedule & Gantt Milestones	9
4.3 Quantitative Risk & Failover Strategies	10
5. Project Development Phase	11
5.1 Core Backend Controller & Type Boundaries	11
5.2 RESTful Ingestion APIs & Services	12
6. Project Testing	13
6.1 Test Methodology Tiers	13
6.2 System Verification & Integration Logs	13
7. Project Documentation	14
7.1 Containerized Orchestration & Setup	14
7.2 CI/CD Pipelines & Cloud Deployment	14
8. Project Demonstration	15
8.1 Functional Dashboard & Workspace Layouts	15
8.2 Real Telemetry Performance Metrics	15
